

*A Symposium ranging from the Research Bench to the Practice!*

# Pharmacy Master Symposium 2014

---

## Introduction

In the Health Systems the medicines are a very complex agent which requires a rigorous and continuous surveillance in the *pre* and *post* marketing, to assure the efficacy, effectiveness, efficiency and safety.

The Pharmacy Master – Specialization in Applied Pharmacotherapy of Coimbra Health School is organizing a Symposium that pretends to be “*A Symposium ranging from the Research Bench to the Practice*”.

For that purposes the Organizing Committee has mixed both phases – investigation & safety, with new approaches, expecting that practices in this field can profit from this research in the benefit of the patients and also promoting and enhance the dialogue between academia and practice sharing the research developed in this Master.

Regarding the objectives of the Drug Utilization Studies and their validity and utility, the education and practice in a different model, the role of patients in the safety process and a new approach of drug discovery and the linkage to the benefit of Society are the main goals of this Symposium that the Organizing Committee brings to life, for professionals and students related to medicines.

## Scientific Committee

Doutor Carlos Fontes Ribeiro  
Doutor Luiz Santiago  
Doutora Cristina Fonseca  
Doutor Frederico Pereira  
Mestre Carmen Monteiro  
Mestre Pedro Cruz

*A Symposium ranging from the Research Bench to the Practice!*

## Scientific Program

9.00 h – Registration

9.30 h - Open Ceremony

10.00 h – *Panel I - from research to practice – searching for the missing link*

Chair: João José Joaquim

**Drug Utilization Studies – utility and validity for safety** – Luis Almeida – University of Aveiro

11.00 h – F&C Break

11.15 h – *Panel II - the role of patients in safety*

Chair: João José Joaquim

- **Consumer Reporting of ADRs: The Dutch and International Experiences** - Florence van Hunsel - *Netherlands Pharmacovigilance Centre Lareb*
- **Attitudes and knowledge concerning ADR's - How do Portuguese Patients behave** - Cristiano Matos – Coimbra Health School
- **Portuguese System of Pharmacovigilance data and strategies to bring patients to the system** – Margarida Guimarães - Directorate of Risk Management for Medicines - Infarmed, I.P.

12.30 h – Lunch time

14.00 h – *Panel III – challenges in drug discovery and development*

Chair: Paula Fonseca

- **Nanomedicines: Challenges in translating bench to bedside** – Filomena Botelho - *University of Coimbra/Faculty of Medicine*
- **The Drug Discovery and Development in Portugal – What is missing?** - Fontes Ribeiro – *University of Coimbra/AIBILI*
- **A Novel Integration Approach in Glioblastoma Multiforme Drug Discovery** - Luis Carlos Oliveira – *Coimbra Health School*

15.30 h - F&C Break

16.45 h – Oral Communications

17.30 h – Closing Session

## Practical Information's

### Registration fees

Categories	Before May 31 <sup>st</sup>	After May 31 <sup>st</sup>	On site
Students / APLF Members	10 €	15 €	20 €
Professionals	15 €	20 €	25 €

### Registration fee includes

*access to the conference, certificate of presence, F&C Break*

### Lunch (optional)

deadline reservation – **June, 7** – cost pp - 5,00 €

### Communications

deadline for abstract's submission – **May 31<sup>st</sup>**

### Venue

Auditório Santa Clara  
ESTeS/Coimbra Health School  
Rua 5 de Outubro  
S. Martinho do Bispo

### Coordinates

40° 11' 53'' N  
8° 27' 40'' W
